

PARTNER SEARCH FORM

Digital Europe Programme (DEP) / Horizon Europe Programme (HEP)

1. General Information	
Organisation	Make IT Safe
Country	France
Activity sector	Cybersecurity
Legal entity	SME (Small and Medium-sized Enterprise)
Call Reference (ID)	Horizon–CL3-2026-02-CS-ECCC-01
Call deadline	15/09/2026
Deadline to join the consortium	
2. Partnering Needs and Expectations	
Potential role in the project	Technology Provider / Research
What specific expertise or resources are you looking for?	Partners with hardware/firmware expertise (OEMs, integrators), research institutions (CEA, INRIA, universities) specialised in supply chain risk, SAST/SCA tooling editors, and industrial actors (OIV/OSE) with complex supply chains to secure.
Responsibility in the consortium	WP Leader, Work Package on software security evaluation and DevSecOps tooling
Expectations regarding collaboration	Make IT Safe brings deep expertise in software security assessment, secure development practices, and DevSecOps integration. We expect partners to contribute complementary capabilities: hardware/firmware security analysis, real-world industrial use cases, and dissemination capacity across European markets. We value structured collaboration with clear task ownership, regular technical exchanges, and joint deliverables aligned with EU cybersecurity standards (NIS2, CRA).
Specific requirements or conditions for partners	No — Open to any EU-based organisation with relevant expertise and commitment to project deliverables.
3. Experience in European and National Projects	
Experience in national funded projects	Yes, Make IT Safe has participated in French national cybersecurity programmes and has delivered security assessments and consulting missions for critical infrastructure operators (OIV/OSE), financial institutions, and public sector clients in France.
Experience in EU funded projects	No EU-funded projects to date. Make IT Safe is actively seeking its first European consortium engagement, bringing proven national-level expertise and strong technical credentials to complement experienced EU project partners.
