Description of your expertise / the expertise you are looking for

(up to 1000 characters)

SPIX is a Voice-AI solution to ease the interactions of humans with complex systems. SPIX is embedded, operates offline, is robust to noise.

SPIX enables to simplify the interactions of humans in industrial context with any type of complex systems to perform actions: get information, report operations, validate issues, control robots, control UAVs, ... by voice.

SPIX as "action enabler" to make AI systems operational anywhere anytime in the industry. It provides operational dialog management functions, cooperation with LLM and SLM (embedded LLM), voice recognition functions. SPIX is a sovereign European technology, with R&D made in France.

EU projects often "forget" the human interactions with complex systems. SPIX is a good opportunity for DIGITAL-EMERGING projects (-03 / -09 / -51 / -53) to restore the place of humans, providing an easy and convenient interaction mean.

Keywords describing your expertise / the expertise you are looking for

(up to 10 key words)

Voice-AI, human-system interface, industry, human-robot interfaces, voice interfaces, embedded, off-cloud

<p>Previous participation in an EU project?</p> <p><input type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> Yes, please specify: EIT Manufacturing / Euratom / EDF / Horizon Europe</p>
<p>Web page: https://spix-industry.com</p>
<p>Description of your organisation or the consortium for which you need a partner:</p> <p>SPIX industry is a French SME based in Toulouse (south of France). The company is specialized in the operational deployment of Voice-AI interfaces in the industry: from the shop floor operations, to the confidential meeting reports, through the technical memo generated in mobility. This unique expertise is the convergence of technical skills, operational IA tuning, and hardware mastering to fit with the industrial constraints. SPIX industry is used to participate to EU projects: EIT Manufacturing, Euratom, EDF, Horizon Europe to finance its R&D effort.</p>
