

Cooperation Profile

Date of Submission: 25-01-2023

With this form you have the opportunity to present yourself as a cooperation partner (cooperation offer) for a current call topic in Cluster 4 (Destinations 1-4 and 6). Once cleared, your cooperation profile will be linked to our website and will be able to be viewed by others seeking prospective partners. You also have, of course, the ability to browse the profiles of other researchers looking for partners in order to form one or more project consortia (partner search).

Please fill in the form and send it to Christof Haas at c.haas@fz-juelich.de.

Relevant topic(s) in the work programme (call identifier & name of the topic(s))

[HORIZON-CL4-2023-HUMAN-01-32: Piloting communities of expert facilitators to improve industry-academia-public sector co-creation \(CSA\)](#)

[HORIZON-CL4-2023-HUMAN-01-21: Next Generation eXtended Reality \(RIA\)](#)

[HORIZON-CL4-2023-HUMAN-01-22: eXtended Reality for Industry 5.0 \(IA\)](#)

[HORIZON-CL4-2023-HUMAN-01-82: Art-driven digital innovation: Towards human compatible and ecologically conscious technology \(CSA\)](#)

Description of your expertise (up to 1000 characters)

My research focuses on cultural and social communication and media research. In my research projects, I analyze interpersonal media communication in close social relationships in the context of digitalization, socialization, and migration. I would like to continue researching changes in digital interpersonal communication and, thereby, changes in society's digitalization, particularly concerning virtual spaces. My research has been published in national and international journals, for example, on mediated memory practices and the mediated negotiation of friendship intimacy across geographical distances.

Keywords describing your expertise (up to 10 key words)

Qualitative social science research, interpersonal communication, migration and media studies, intercultural communication, digital literacy, participatory research, technological consequences for society, social VR research

Organisation information

Organisation: Paderborn University, Germany

Type of organisation:

Industry (Large) Industry (SME) University or College Research Institute
 Public Body Other

Previous participation in an EU project?

No Yes: in

Description of your organisation:

Paderborn University is the University for the Information Society. Our strong foundation in computer science and its applications, as well as the importance of IT for a growing number of disciplines, are the pillars for this claim. But we want to achieve more: we want to contribute to the scientific and technical development of the information society, simultaneously critically reflecting these developments by taking into account the history, norms and values of our society. To achieve this, we need the spectrum from “hard” sciences to the arts and humanities to complement and learn from each other. Our mission includes a strong international and cultural presence, since the information society is decidedly global and should not remain a purely intellectual undertaking.
