

# PARTNER SEARCH FORM

## For Digital Europe Programme (DEP)/Horizon Europe Programme (HEP)

### GENERAL INFORMATION

Organisation	<i>BLOOO</i>
Country	<i>France</i>
Activity sector	<i>Secure embedded software and application-layer security for trusted environments (HSM, wallets, digital identity), with a focus on security-by-design across the hardware/software lifecycle</i>
Legal entity	<i>SME</i>
Call Reference (ID)	<i>Horizon-CL3-2026-02-CS-ECCC-01</i>
Call deadline	<i>15/09/2026</i>
Deadline to join the consortium	

### PARTNERING NEEDS AND EXPECTATIONS

Potential role in the project	<i>Task leader on secure SDLC for embedded applications, including application-layer security, DevSecOps integration, and evaluation methodologies</i>
What specific expertise or resources are you ideally looking for in a partner for this call?	<ul style="list-style-type: none"> <li>• <i>hardware security providers (chips, root-of-trust, secure elements)</i></li> <li>• <i>cryptography/PQC experts</i></li> <li>• <i>certification bodies / evaluation labs</i></li> <li>• <i>industrial use cases (wallet, identity, critical systems)</i></li> </ul>
What is the responsibility your entity wishes to assume in the project consortium ?	<p><i>Task leader</i></p> <p><i>with potential contribution to architecture definition and integration across hardware/software security layers</i></p>
What are your expectations regarding the collaboration and contribution of partners in the project?	<p><i>We expect a consortium structured around strong complementarities between hardware security, cryptography, and software/application-layer security. Blooo aims to contribute at the interface between these layers, ensuring that security-by-design principles are effectively implemented across the full lifecycle of embedded applications.</i></p> <p><i>We value partners able to:</i></p> <ul style="list-style-type: none"> <li>• <i>provide concrete technological building blocks (hardware, crypto, platforms)</i></li> <li>• <i>support integration and interoperability</i></li> <li>• <i>contribute to evaluation, certification, and standardization efforts</i></li> </ul>

	<i>We are particularly interested in pragmatic, implementation-driven collaboration rather than purely theoretical approaches.</i>
Are there any specific requirements or conditions you have for potential partners?	<i>Yes – preference for partners with demonstrable implementation experience in real-world environments (e.g. HSM, wallets, critical systems), and ability to contribute to deliverables beyond research (prototypes, validation, evaluation)</i>

#### EXPERIENCE IN EUROPEAN AND NATIONAL PROJECTS (IF ANY)

Experience in national funded projects	No
Experience in EU funded projects	<p>Yes – contribution to several EU-funded projects:</p> <ul style="list-style-type: none"> <li>• HORIZON Europe (INTELLIGENT – KYC &amp; payment security)</li> <li>• DIGITAL Europe Programme (POTENTIAL – EUDI Wallet, contributor via Docaposte)</li> <li>• EBSI / digital identity related initiatives like Blockstand</li> </ul> <p>Blooo has experience in both project contribution and upstream involvement in consortium building.</p>

#### CONTACT INFORMATION

Contact person	<i>Mickael GABORIT</i>
Organisation	<i>BLOOO</i>
Position/title	<i>Trust Advisor</i>
Email address	<i>tenders@blooo.io</i>
Phone number	<i>0972377726</i>
